Professional Summary

Full-Stack Software Developer with 3 years of experience building enterprise web applications using modern Angular (v22, zoneless and signals-based), TypeScript, Java, and Spring Boot. Delivered Generative AI features on Azure OpenAI serving 10,000+ concurrent users. Skilled in REST API design, microservices, application modernization, and secure authentication. Codeforces Specialist and TCS CodeVita global top-0.3% competitive programmer.

Technical Skills

Languages: Java, JavaScript, TypeScript, Python, C++, SQL
Frontend: Angular 22 (Zoneless, Signals), AngularJS, HTML5, CSS3, Responsive UI
Backend: Spring Boot, Node.js, Django, REST APIs, Microservices
Generative AI: Azure OpenAI, LLM Integration, Prompt Engineering, RAG
Cloud & DevOps: Microsoft Azure, AWS, CI/CD, Git, PuTTY
Databases: MySQL, PostgreSQL
Security: OAuth 2.0, Multi-Factor Authentication (MFA), OWASP
CS Fundamentals: Data Structures, Algorithms, OOP, System Design

Professional Experience

Software Developer, Tata Consultancy Services Aug 2023 – Present

- Engineered the complete UI of the Annual General Meeting (AGM) product in Angular 22 with Spring Boot REST APIs, enabling multi-level filtering and answering of shareholder questions for 10,000+ concurrent users.
- Integrated a Generative AI solution with Azure OpenAI that auto-generates contextual draft answers during AGM question capture, accelerating L1 response workflows.
- Delivered 10–15 Angular/Spring Boot features, including real-time cross-level data synchronization and attachment upload/download.
- Migrated 5+ enterprise applications to Angular 22, including the IEPF investor-claims portal (Companies Act 2013) and the legacy AngularJS-based DRA application, with zero downtime.
- Led adoption of a zoneless, signals-based Angular architecture across 3 enterprise applications (AGM, BoardApp, IEPF), removing Zone.js overhead for finer-grained change detection and faster runtime performance.
- Resolved 100+ security vulnerabilities across the project tower, improving compliance with best practices.
- Designed and deployed a PIN + OTP Multi-Factor Authentication (MFA) system for BoardApp, securing 10,000+ users against credential-based attacks.

Software Development Intern, Sunrise Mentors Pvt. Ltd. (Coding Ninjas) Mar 2023 – Jun 2023

- Developed high-traffic Help & Support and Referral modules in Django and Angular, serving 100,000+ active users.
- Drove a 25% increase in user engagement through efficient issue resolution and automated referral workflows.

Projects

AdTubers – Event Marketplace Full-Stack Developer

- Built a full-stack event marketplace with OAuth 2.0 authentication (Google/Facebook) and a real-time booking engine. (*Angular, Spring Boot, REST APIs, OAuth 2.0*)

ResumeCreator – Automated Resume Builder Full-Stack Developer

- Created a CRUD web application that generates professional resumes from customizable templates. (*Angular, Spring Boot, MySQL*)

Awards & Achievements

- Codeforces: Specialist (Max Rating 1432) – 500+ problems solved.
- LeetCode: Knight (Max Rating 1857) – 400+ problems solved.
- TCS CodeVita Season 10: Global Rank 229 of 100,000+ participants (top 0.3%).
- TCS Awards: Contextual Master, Special Initiative, and multiple Star of the Quarter awards – recognized for enterprise Angular modernization and migration delivery.

Certifications

- Microsoft Certified: Azure AI Fundamentals (AI-900)
- AWS Certified Cloud Practitioner
- Competitive Programming – NPTEL
- Python Programming – Microsoft

Education

B.Tech in Information Technology Jul 2019 – Jul 2023
Madan Mohan Malaviya University of Technology, Gorakhpur CGPA: 8.32/10
